

Hi-Load Aluminium Beams

Specifications

SCP 450mm Hi-Load Aluminium Beams are manufactured using High Grade Aluminium Tube and offer the following benefits:

- SCP Hi-Load Alloy Beams are compatible with Tube & Fittings so are easily connected to Scaffolds.
- SCP Hi-Load Alloy Beams are around half the weight of Steel Beams so are easier to erect.
- SCP Hi-Load Alloy Beams are compatible with all other beams on the market using our Universal Connector Spigot
- Independently tested by Structural Engineers (information available on request).
- Spares such as Universal Connector Spigots, Nuts and Bolts are available.
- All SCP Aluminium Beams are manufactured in accordance with ISO 9001:2000 quality system accreditation.
